

## LEAGUE PLAY

# PICKLEBALL

### The Serve

- The server's arm must be moving in an upward arc when the ball is struck.
- Paddle contact with the ball must not be made above the waist level.
- The head of the paddle must not be above the highest part of the wrist at contact.
- A 'drop serve' is also permitted in which case none of the elements above apply.
- At the time the ball is struck, the server's feet may not touch the court or outside the imaginary extension of the sideline or centerline and at least one foot must be behind the baseline on the playing surface or the ground behind the baseline.
- The serve is made diagonally crosscourt and must land within the confines of the opposite diagonal court.
- Only one serve attempt is allowed per server.

### The Serving Sequence

- Both players on the serving doubles team have the opportunity to serve and score points until they commit a fault\*(except for the first service sequence of each new game).
- The first service of each side-out is made from the right/even court.
- If a point is scored, the server switches sides and the server initiates the next serve from the left/odd court.
- As subsequent points are scored, the server continues switching back and forth until a fault is committed and the first server loses the serve.
- When the first server loses the serve the partner then serves from their correct side of the court (except for the first service sequence of the game\*)
- The second server continues serving until his team commits a fault and loses the serve to the opposing team.
- Once the service gets to the opposition (at side out), the first service is from the right/even court and both players on the team have the opportunity to service and score points until their team commits two faults.

\*At the beginning of each new game only one partner on the serving team has the opportunity to serve before faulting, after which the service passes to the receiving team.

### Scoring

- Points are scored only by the serving team.
- Games are played to 11 points, win by 2 points.
- Match is won by player who wins 2 of 3 games.
- When the serving team's score is even (0,2,4,6,8,10) the player who was the first server in the game for that team will be the right/even court when serving or receiving; when odd (1,3,5,7,9) that player will be in the left/off court when serving or receiving.
- If match is not determined at the end of 30 minutes, player in the lead wins.

## LEAGUE PLAY

# PICKLEBALL

### Two-Bounce Rule

- When the ball is served, the receiving team must let it bounce before returning, and then the serving team must let it bounce before returning, thus two bounces.
- After the ball has bounced once in each team's court, both players may either volley the ball (hit the ball before it bounces) or play it off a bounce (ground stroke).
- The two-bounce rule eliminates the serve and volley advantage and extends rallies.

### Line Calls

- A ball contacting any part of any line, except the non-volley zone line on a serve, is considered "in."
- A server contacting the non-volley zone line is short and a fault.

### Non-Volley Zone

- The non-volley zone is the court area within 7 feet on both sides of the net.
- Volleying is prohibited within the non-volley zone. This rule prevents players from executing smashes from a position within the zone.
- It is a fault if, when volleying a ball, the player steps on the non-volley zone, including the line and/or when the player's momentum causes them or anything they are wearing or carrying to touch the non-volley zone including the associated lines.
- It is a fault if, after volleying, a player is carried by momentum into or touches the non-volley, even if the volleyed ball is declared dead before this happens.
- A player may legally be in the non-volley zone any time other than when volleying a ball.
- The non-volley zone is commonly referred to as "the kitchen."

### Faults

- A fault is any action that stops play because of a rule violation.
- A fault by the receiving team results in a point for the serving team.
- A fault by the serving team results in the server's loss of serve or side out.

### Determining Serving Team

- Team listed first on the schedule will be first to serve.
